

# Documentation for Raiffeisen Infinity Fallback

## General Information

For Raiffeisen Infinity we provide a PSD2-compliant Fallback mechanism. A dedicated API is currently not available.

## Registration for a Test Account in the Sandbox

Your company needs to be registered in our system to access the Sandbox. To get a test account contact our Business Support (<https://developer.raiffeisen.at/en/contact/contact.html>) with the following details:

- Name of your company
- Contact person
- Email address
- Mobile phone number (this is used to send SMS-Tan during the login)

## Accessing the Infinity Fallback

All requests to the Fallback have to be signed with your eIDAS QWAC certificate.

Entry point to the Fallback is <https://psd2-fallback.infinity.raiffeisen.at>

*Please note the entry point is different to our regular customer login!*

The following example shows a request in cURL format:

```
curl -X GET https://psd2-fallback.infinity.raiffeisen.at \  
--cert "/path/to/cert.pem" \  
--key "/path/to/key.key"
```

## Support for Raiffeisen Infinity Fallback

- Business Support: <https://developer.raiffeisen.at/en/contact/contact.html>
- Technical Support: <https://developer.raiffeisen.at/en/contact/technical-support.html>
